

Working Prototype Known Problems Report

Project Alnfant **Team Michael and the Boyz** **11/22/2016**

Not Working:

- **Input Causing Failure:**
 1. The parser can only handle simple sentences. It can not handle greetings, slang phrases, compound, complex or compound complex sentences. Also has problems with special cases.
- **Location of Fault :**
 1. There is no fault in the code, but if it were to be implemented it is heavily related to the SyntaxCheck, SyntaxRules, and ParseTree Classes
- **Possible Action for Removal of fault:**
 1. If compound/complex sentences were to be implemented, we would handle it in the syntax rules module, but would need to write module that implements the sentence/phrase classes we established
